

ENDLESS POOL ELITE

STROKE TRAINING SYSTEM

Elite One-on-One Coaching

Introducing the Endless Pool Elite, a counter-current swimming machine that will revolutionize swim instruction. The Elite offers coaches a unique and unprecedented opportunity to analyze every element of their swimmers' stroke, while providing both coach and athlete instantaneous, real-time feedback via multiple adjustable cameras and mirrors. Most importantly, the Elite is fast, strong and smooth — faster by far than any swimming machine on the market today — as smooth as the original flume in Colorado Springs. And with units as small as 8' x 14', it fits on any deck... and in any program.

For 25 years, Endless Pools has been the world leader in counter-current swimming machines, selling over 20,000 units to triathletes, physical therapists and masters swimmers for swimming, water exercise and recovery. Our new 7.5 HP Elite pool is designed specifically for competitive swim programs: with a 51 second 100-yard pace, it even challenges sprinters. With the Elite, a coach can increase the current speed to a swimmer's race pace — see precisely when and how their stroke breaks down — and fix it. Immediately. You can't do that yelling across three lanes of a 50-meter pool.

The Elite, with warm water, is also ideal for teaching all levels of swimming, from young beginners to Masters — generating welcome income for your program. There is no better one-on-one teaching environment.

Endless Pool Elite Specifications and Options

- 8' x 14' swimming area (9'4" x 15'4" minimum footprint)
- 44" water depth
- modular steel construction
- commercial membrane
- 7.5 HP 2 propeller swim current generator
- reinforced acrylic water flow and conditioning system
- three 59" x 18" stainless steel VGB-compliant suction grills
- perimeter coping
- commercial-grade water quality system
- automatic chemistry controller (ORP, pH)
- lockable retractable security cover

Auburn University

University of Louisville

Dartmouth College

0:51 hundred-yard pace

University of Kentucky

“For years at Auburn I trained my athletes in an Endless Pool — but the Elite we put in at SwimMAC takes it to another level. It expands my ability to provide the best technical advice possible”

– **David Marsh**
CEO & Director of Coaching for SwimMAC

Coach Marsh, SwimMac Carolina

Eight-foot width to accommodate even the tallest swimmers.

Smooth, broad swim current, 0:51 hundred-yard pace.

“There’s never been a better method to evaluate, teach and test top level swimmers on a daily basis than the Endless Pool Elite”

– Glenn Mills, goswim.tv
