The Synergy above ground swimming pool by Aqua Leader combines ultra-durability and modern lines to provide a sleek and stylish pool design. This pool's resin **9" top rail and 7" wide vertical post** are made with the latest injection molding technology, providing superior durability. The colour of the resin components is solid all the way through, meaning they will never fade.

A distinct feature of this pool is the **all Aluminum wall that prevents corrosion**. Complete with a **54" Destination wall** the Synergy is compatible with virtually all pool chemical systems.

The Aqua Leader Sentinel is a modern Above Ground swimming pool that combines strength and durability with a contemporary design. With precision-molded connections, including the **9" radial resin top rail and 7" wide vertical post** that fit together perfectly every time, this pool provides long-term benefits you're sure to appreciate year after year.

The reliability and structure of the Sentinel's design eliminate the use of angular joints, which produces ultra-strong rails, stunning continuous curve and a **54" Stella wall**. This unmatched combination of structural integrity and a clean, contemporary design provides reliable fun for the whole family year after year.

The Aqua Leader Trinity Above Ground swimming pool was designed with three key ingredients in mind – durability, low maintenance, and family fun! The radial resin **6" top rails and resin 7½" wide wall posts** were created using a state of the art injection moulding process for superior strength and preservation over time that also makes these pieces salt-water friendly.

The top rails feature unique channels that work to capture water making your rails less slippery when entering and exiting the pool. The **54" Trinity wall** is the tallest we offer making it the perfect option for families with kids from young to old and swimmers from beginner to professional.

### IN-WALL SKIMMER

The in-wall skimmer will entrap leaves and other floating debris automatically from your pool when the filter system is functioning.

# WHY BUY AN ABOVE GROUND POOL?

Perhaps the most popular benefit of Above Ground Pools are their affordable price tags and the lowered expenses that come with them. Above Ground Pool prices are generally lower than the prices of other pool models currently on the market due to their sizes and smaller-scale installs. In addition, Above Ground Pools have lower operating costs as they typically require less chemicals and less equipment to keep them running in tip-top shape.

It's true when we say, "Buy an Above Ground Pool today and you'll be able to swim in three weeks!" Due to the seamless construction of these pools, they are quick and easy to install. Instead of digging a large hole in the ground and spending extra dollars on construction, Above Ground Pools are an "out of ground pool" and can typically be installed within a 1-3 day timeframe. Components are all precision made to fit together, making installation a breeze while ensuring that your pool has the support to remain durable and tough for years to come.

## UNLIMITED BACKYARD DESIGN IDEAS

Gone are the days where pool owners are stuck with having a winter-grey Above Ground sitting stark in the middle of their yards. Whether you're looking for a pool for a small space, or just prefer the "out of ground" pool look, our Above Ground Pools come in a wide range of sizes and styles that will fit the look of any backyard. We are always sharing new and creative ways to landscape and build around your Above Ground Pool. You will notice that many modern Above

Ground Pool designs have been inspired from nature. Enjoy Above Ground Pools with soothing images of tall grass blowing in the wind or rocky textured looking patterns that represent natural strength and raw power.

Build a stunning wood structure around your pool, or surround it with plants and trees to create a zen oasis. The possibilities are endless!
